

Learning.com Empowers All Students

Why Learning.com?

Learning.com offers the most comprehensive digital skills curriculum for students, covering online safety, foundational AI literacy, IT fundamentals, and computational thinking to build confidence with emerging technologies. Serving over 2 million students annually, our award-winning curriculum engages students, supports educators, and equips learners with the skills to develop safe, proficient, and healthy relationships with technology.

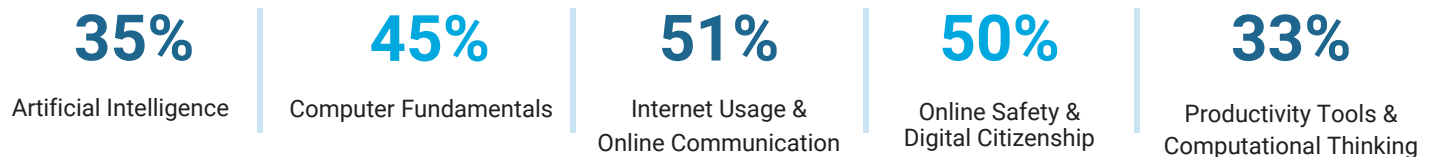

Our comprehensive K–8 curriculum includes:

- Online Safety & Digital Citizenship
- Computational Thinking & Coding
- AI Literacy
- Keyboarding
- Productivity Tools

Learning Gains Across the Nation:

Students demonstrated growth across all grade levels and skill areas where instruction and assessment was provided for the 2025–2026 school year.

"Our 3rd through 5th grade STAAR scores were phenomenal, and the increase aligned with the implementation of Learning.com, so you have to draw the inference that it has something to do with the program."

GINA ALAMIA

District Instructional Technology Specialist
Edinburg Consolidated Independent School District

Learning.com Empowers All Students

Comprehensive Digital Literacy Instruction

Helps educators meet CIPA compliance, and national standards, ensuring students gain essential future-ready skills in areas like digital citizenship, AI, computer fundamentals, keyboarding, and coding.

Flexible and Adaptable Lessons

Saves teachers time with pre-built lessons that integrate easily into core subjects, reducing the burden of lesson planning.

Auto-Grading and Reporting Tools

Provides educators with real-time insights into student progress reports, simplifying grading and ensuring accountability.

ABOUT LEARNING.COM

Learning.com offers a CIPA-aligned digital skills curriculum for students, covering online safety, IT fundamentals, computational thinking, and foundational AI literacy to build confidence with emerging technologies. Serving over 2 million students annually, our award-winning curriculum engages students, supports educators, and equips learners with the skills to develop safe, proficient, and healthy relationships with technology.

Learning.com values each of our students and the inquisitive minds they bring to our products. To make sure our content is accessible to all learners with different abilities, Learning.com's products meet WCAG 2.1 Level AA compliance, and we perform tool-based testing in conjunction with assistive technology.

Learning.com complies with all applicable state and federal laws, including the Family Educational Rights and Privacy Act of 1974 (FERPA), the Children's Online Privacy Protection Act of 1998 (COPPA), and the California Consumer Privacy Act of 2018 (CCPA).
